

High Speed- Ethernet Communication

up to **1 Gigabit**

→ Fast has probably never been that **small and compact!**

EFFICIENT AUTOMATION IN NEW DIMENSIONS
with the Helmholz Industrial Ethernet-Switches

ETHERNET-SWITCH 5/8/16-PORT, UNMANAGED, 10/100/1000 MBPS

The Industrial Ethernet Switches from Helmholtz enable you to connect up to **16 Ethernet participants** without any additional configuration. Get the **maximum speed** for your manufacturing and process industry.

Product highlights:

- Available in 5/8/16-port, unmanaged
- Simple Plug & Play solution
- Power supply plug
- Easy network integration
- Flat and rugged design for DIN rail installation

*Ethernet-Switch
5/8/16-port*

ORDERING INFORMATION

	Ethernet-Switch 5-port, unmanaged	Ethernet-Switch 8-port, unmanaged	Ethernet-Switch 16-port, unmanaged
Variant up to 1000 Mbps (1GB)	700-841-5ES01	700-841-8ES01	700-841-16S01
Variant up to 1000 100 Mbps	700-840-5ES01	700-840-8ES01	700-840-16S01

Related product

ETHERNET-SWITCH 8-PORT, UNMANAGED, 10/100 MBPS, IP67

Fail-safe data communication under rough conditions – with its robust, water- and dustproof housing, confirmed by IP67 certification, the switch is made for heavy industrial environments.

Product highlights:

- 8x M12 ports (d-coded)
- Waterproof and dustproof (IP67)
- Extended temperature range (-40 °C ... +75 °C)
- Store-and-Forward architecture
- LLDP & PTCP Delay-Traffic blocking (for PROFINET networks)
- Protection class IP67
- Switch cabinet-less assembly possible

FIND JUST THE SWITCH YOU ARE LOOKING FOR!

Regardless whether Ethernet, PROFINET, managed, unmanaged, IP67 – Find your perfect network solution for safe machine and plant access at all times.
