myREX24 V2 Public Server 250 weitere Sprachanrufe

The myREX24 V2 portal is an integrated system for accessing the components of your machine or system, for remote maintenance and remote diagnosis. Control the data of your system via web browser - directly with your smartphone or tablet. All data and states that are available to you as an external signal or as a value in a control system can be evaluated and monitored with the myREX24 V2 portal. Log operating data directly in the myREX24 V2 portal and create your own reports.

The license is non-transferable!
